## Invited Lecture

Monday 4th October 2022

14:15 – 15:45

room 113 Maiengasse 51, CH-4056 Basel

**«Survival, variation and extinction of Portuguese (and Spanish) language among the Portuguese New Christian diaspora in Western Europe»**

Lecturer: **Dr. Peter Nahon** (Université de Neuchâtel)

Contrary to the many studies dedicated to Judeospanish, we only have fragmentary research on the Portuguese and Spanish, spoken and written in the communities of Jews of Converso (Christian) origin in such cities as Venice, Amsterdam, Hamburg etc. during the Early Modern period. This communication offers an overview of current research and draws future perspectives.
